MEDICAL DEPARTMENT OF HAMPDEN, SYDNEY COLLLEGE, RICHHOND, VA.—The thirteenth Annual Course of
Leaures will commence on Monday, the 14th of
October, 1850, and continue until the 1st of the
ensuing March. The commencement for conferring
degrees will be held about the middle of March.

B. L. Bohaman, M. D., Prof. of Obstetrics
and Discasses of Women and Children.

L. W. CHAMBRALATHE, M. D., Prof. of Materia Medica and Therapeutics.

S. Maupin, M. D., Prof. of Chemistry and
Pharmacky.

ships from New York to Chagres, they were prevailed upon, at the urgent solicitation of the great number then desirous to go out, to sell tickets for through passages from Panama in advance, for their ships then going round This was done from a desire to accommodate those who could procure passages in no other quarter, and by which, whatever might be the detention, they would reach San Francisco sooner than by any other line. Unforeseen difficulties, and the prevalence of fever at Rio de Janeiro at the time, prevented their ships from reaching Panama as soon as anticipated, and caused detention at the Isthmus, which was increased by the impatience of passengers in going forward, against the advice of the Company, at an earlier day than the ship could possibly reach Panama.

These interruptions are now all removed. My and Physiology.
David H. Tuckan, M. D. Prof. of Theory as

all times well filled with medical and surgical set, and furnishes peculiar facilities for clinical struction. Many surgical operations are permed in presence of the class; and the students ing freely admitted to the wards, enjoy, under a guidance of the Professors, unusual opportuies for becoming familiar with the symptoms, ignosis, and treatment of disease.

Expenses—Matriculation fee, \$5. Professors' as \$105. Demonstrator's fee, \$10. Graduation 425.

e, \$25.
The price of board, including fuel, lights, an evanta' attendance, is usually \$3 to \$31 per

week.

The catalogue, &c., containing fuller information concerning the institution, will be forwarded to those applying for it, or specific inquiries will be answeree by letter Address,

S. MAUPIN, M. D.,

Dean of the Faculty.

THIRD ANNUAL EXHIBITION

Meryland State Agricultural Society.

A PPEAL TO THE MEMBERS OF THE MANYLAND STATE AGRICULTURAL SOCIETY.—We desire that you should bear in mind, that on the 23d, 24th, and 25th days of October, your Society will hold its annual Exhibition and Fair at the city of Baltimore: and we appeal to you, one and all, to bring for exhibition thereat portions of your stock, the products of your orchards, and of your gardens. Don't presume that any animal, or product, you may own is inferior to others that will be here, and be thus deterred from bringing them, as it is only by comparison that the relative merits of any thing can be determined. The safer presumption for you to arrive at, will be that what you have is as good, if not better than that of others, and that it behaves you to gallantly enter the list of competition: if defeated honorably, and the high character of the judges is a guarantee that you can be defeated in no other way, you will enjoy the luxury of knowing that others were more entled to success than yourself.

And while we address you to bring such article

And while we address you to bring such articles share properly in your department, we crave permission to solicit your interest, to induce your piece and daughters to bring whatever appertains of his peculiar departments, as embroidery, houseful measuractures, the proacts of the dairy and of he poultry yard, preserves, domestic wines, confectures, and, above all things, to come themselves, as the words, and the beautiful elaborations of her like and garden, no display can be perfect.

To the Manufacturers of Agricultural Implements the would say, that interest and patricular of making a grand exhibition of your machanery of all kinds, as from our present advices, we are led to believe that the assemblage of farmire, and planters, and of distinguished strangers from most of the States of the Union, will be retair than upon any former occasion here or relewhere. We therefore any to the Agricultural full lement makers and Mechanics of the United States, there it a matter of pride to display your machinely at our exhibition, and vie with each other in having the best and largest assortment on the ground. Such ambition is laudable—is worthy of the perican genius, and should be cherished by the decreas meat.

ta favor by copying this notice.

(of the late firm of Lane & Tucker,) would all the attention of his friends and the public generally to his stock of Goods now opening, which has been selected by himself from the largest importing houses in New York, and by far the great-variety and richest styles I ever offered in this Strangers are respectfully and earnestly some two gives me a call and examine my stock before warchasing, as I am confident it will be to be gray and stage.

Fore warchasing, as I am confident it will be to beir advantage.

And I would especially call the attention of of the series, both of the army and the navy, to the fact that I am prepared to execute all kinds of uniforms, according to the late regulations, at the shortest motice, and at moderate prices, warranted, both in the cutting and making departments, equal to any stabilishment in this country.

W. T. tenders his sincere thanks to his numer ous friends for theirlong and continued patronage and hopes, by the same diligence and attention to trainess, to merit a continuance of the same.

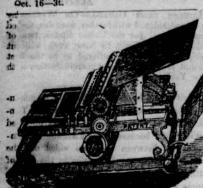

«All orders promptly executed.

66. Mechanical Principia. (Leonard.)

66. Mechanical Principia. (Leonard.) The great object of this publication is, to place before practical men and students such an a mount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together, is almost beyond a precedent in such works. Indeed there is hardly any subject within its range which is not cated with such clearness and precision, that even man of the most ordinary capacity cannot fail of understanding, and thus learning from it much which it is importent for him to know.

From the annexed list of the principal authors

From the annexed list of the principal authors and subject comprised in this work it is self-evident, that all citizens engaged in the practical and useful arts, etc., may derive essential advantages from the possession and study of this publication, The following may be especially designated:

Millwrights.
Moulder and Boiler Makers.
Artificers in Brass, Copper, and Tin.
Cutlers, and Workers of Steel in general.

Workers in Ivory, Bone, and Horn.
Civil Engineers, Railway Concretors, and Contractors for Earth-Work, and Masonry of every

tractors for Earth-Work, and Masonry of every description.
Architects and Bridge Builders.
Builders, Master Masons, and Bricklayers.

*hip Builders, Masters of Vessels, Ship Carpenters, and others connected with Building and Docking Ships.
Block and Pump Makers.
Hemp Dressers and Rope Makers
Manufacturers of Linea and Cotton Fabrics.
Manufacturers of Spinning Machines, Roving Machines, Card Breakers and Finishers, Drawing Frames' Willows, and Pickers, etc., connected with Cotton, Flax, and Wool Machinery.
Calenderers, Bleachers, and Calico Printers. M. D.

Dr. D. J. Cain, Physician to the Marine Hoppital and Clinical Instructor. Lectures twice a week on the Diseases of that Institution.

Dr. E. B. Flagg, Physician to the Alms House.
Lectures twice a week on Diseases.

Demonstrative Instruction in Medicine and Surgery at the College Hospital.

HENRY R. FROST, M. D., Dean.

calenderers, Bleachers, and Calico Printers.
Cloth Folders, and Measurers, and persons interested in Sewing Machinery.
Anchor and Chain Cable Manufacturers.
Cutting and Turning Tool Makers
Pin and Needle Makers.
N. il earl Pinet Makers.

Nail and Rivet Makers. Bolt and Screw-Bolt Makers. Nail Cutters. Coiners.
Leather Dressers and Curriers.
Manufacturers of Great Guns and Small Arm s.
Candle Makers.
Biscutt and Cracker Makers. Ribbon Weavers.
Stone Cutters and Marble Masons.
Dyers, Cloth Washers, and Scourc.

Spring Maeufacturers.

Wheelwrights, Clock Makers Horologists, &c.

The publishers have expended a large sum of money to get original drawings of machinery in practical use in this country, and have procured almost every work on the sudject, whether published in England, France, or Germany, the most essential parts of which being comprehensive as possible. The publishers have endeavored to use great economy in type, so that each page of the work contains at least four times the number of words found in ordinary pages of the same size. This has also secured to each plate working-drawings of ample size and clearness, so that a Mechanic may construct accurately any machine described.

The publishers are, in short determined, tegardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The work will procure it as issued in numbers, and thus encourage the enterprise.

PREFARATORY NOTICE.

The enterprise in which we now embark, an I of which this paper is at once the commencemer I, and a sample of the papers that are to follow, I as for its arm no less a purpose, than to impart instruction, in the general and detail, to the Officer and Agents of the American public, in respect both to their duties and their rights, and to make them, and the people at large, acquainted with the organ ization, decisions and action of the Executive departments of their Government. There has hith erto Leen no vehicle for the regular and proper communication of information of this kind. The publication of the Laws nad the issue of instructions, more or less comprehensive, and at intervals more or less extended, have proved wholly inndequate, in the absence of the construction of those Laws, as applied to particular cases, and of details and illustrations to make the regulations and in structions intelligible. The valuable documenta annually reported to Congress, are too voluminous and are printed in quantities too small for general circulation; whits the debates in Congress and the commentaries of the press upon their proceedings, and the proceedings of the Executive branch of the Government, besides turning mostly upon general principles, address themselves only to narty ends, and to matters of national policy. These publications in their various forms are highly useful in themselves as far as they go, and some of them indispensable; but there is much that do not reach the lands of all, nor if they did, do they furnish those rules, methods, and examples, for the despatch of the public business which can render the discharge of public duty either safe or easy, whether in respect to the incumbent himself, or the department or bureau under which he acts. We shall make an houest effort to supply this vacuum, and to provide for these necessities. If we succeed in rendering the functions of the country And t

per will be sent, that the Sen or Editor was Auditor of the Post-Office Department until the month of November last; with by far the larger portion To Havana — 70 55 25
To New Orleans 30 cents per cubic foot
